

Seeking Physics Students for Interview and Survey

We are conducting interviews about Student Career Decision-Making in Physics.

We are currently looking for physics majors in their first year of study who would be willing to participate in an interview session either in person or on Zoom over the next semester.

The interviews will only take between 45 minutes to an hour at most and you will receive a **\$10 Amazon gift card as compensation for your time.**

If you have any questions about the study, email me at kst9867@rit.edu (Keegan Tonry) or Dr. Ben Zwickl at ben.zwickl@rit.edu in the RIT School of Physics and Astronomy.
