RIT Observatory Proposal Form: Spring 2010

The deadline for proposals is Thursday, April 15, 2010.

**Personnel**

**Target(s)**

Include a table showing the position and magnitude of each target. Attach a finding chart for each object, with the target clearly indicated.

**Equipment**

List telescope, camera, filter and other requirements.

**Times and Dates**

The period available is Apr 18 - May 7, 2010. Consult the Observatory web page for dates of Open Houses, which take priority over scientific work. Indicate below any special times which are required for your work.
Describe how many images you will need, and over what sort of time period.

**Scientific Justification**

Attach additional sheets as necessary.
